

Asfalıs

Safe. Secure. Sure.

WE DON'T PREDICT
THE FUTURE - WE
PROTECT IT

ASFALIS SERVICES

The ability to operate successfully during adverse situations isn't a matter of luck. It's a matter of strategy and preparation. At Asfalıs, we see the unforeseeable and, thanks to our team's proven expertise, have the ability to virtually crisis-proof any business. Safeguarding your company begins with answering a few important questions.

WHO ARE YOU?

I'm in the middle of a crisis!
Help! You need:

**CRISIS
MANAGEMENT**

I'm not in crisis yet, but we
need a strategy to recover
the operation. You need:

**BUSINESS
CONTINUITY**

I'm sure the risks are there,
but I don't know how to
identify them. You need:

**ENTERPRISE
SECURITY RISK
MANAGEMENT**

WHO DO WE WORK WITH?

QUEENS UNIVERSITY
OF CHARLOTTE

XPOLogistics

USC University of
Southern California

Gulfstream

NJR CONSTRUCTION LLC

asfalısadvisors.com

Asfalis
Safe. Secure. Sure.

WHAT DO YOU WANT?

SAFE

I want to take an important first step toward identifying and minimizing risk right now.

SECURE

I want to go beyond basic preparedness to add systematic training, reviews, and programs.

SURE

I want to do everything possible to ensure that my company can absorb virtually any impact and bounce back.

WHAT WE DO

ASSESS AND PLAN

This is the most critical step because if we can't see it, we can't solve for it. We assess the current state of your organization until we thoroughly understand it, gathering insights from vendors and employees on the frontlines all the way up to leadership. We're able to identify the potential problem areas that are nearly impossible to spot when you're in the trenches every day and we create a strategic roadmap to close your gaps.

TRAIN

When the risks are visible and we have a plan to manage them, it's time to equip your people. This is where strategies come to life and when people begin taking ownership and accountability within their key roles. We want to prepare your employees, vendors and customers with the reflexive knowledge of the best steps to take when they see the issues we've identified in the assessment phase.

ADVISE

Genuine business resiliency requires key performance indicators and key performance areas. In other words, we have to measure results to be sure you can actually recover your business. Advising means working with your senior leadership and internal subject matter experts to design a strategy that supports your vision. From onsite support during an implementation to assistance in managing an active crisis to providing access to our cadre of professionals, we can advise you from multiple perspectives.

Stop reacting to events and start acting to prevent them.
Contact Asfalis today to begin your journey toward safe, secure, and sure.
